Maine

Harmony Maine

July 9 1912

Dear Marion

I will try and write you a few lines. It is so hot I dont feel like doing much of anything. I hope you have got through cleaning for this is dreadful weather to clean house in. it is all I can do to get something to eat. They are getting right into the haying they are going to work here this week and go down to Jash's next week probably it will take a week or more down there. Lizzie helps me a lot - she is a nice girl I think I want you to see her before she goes back. we have had a nice lot of strawberries Lizzie is a dandy to pick

have you had green peas yet - are
looking nice if we could have some
rain it would help them and every-
thing else I guess it is awful dry
did they succeed in stopping the fire
it looks awful smoaky as though there
were fires somewhere. How is
Grammie getting along this hot-
weather I hope she won't get sick
I suppose she is doing up a lot of
mending for you. I suppose they
are haying down there how long
will it take them. Tell Clifford
I was very glad to get a letter
from him when I saw the letter
was from him I was afraid you
was sick. you and Nellie was the
only ones that thought of my
birth day, tell Grammie that hen
under the log hatched 6 chickens
I hope we shall have it cooler
tomorrow this weather just will
one night down I am too sticky to
write any more Lovingly Mamma
