

Mrs Clifford L. Burrill
Deedham
Maine

Harmony, May 29, 1912

Dear Marion,

I got your letter last night so I thought I would write a little while I am resting a few minutes I have been trying to fix the screen door here on the porch one day I got the old screen off and the next day I painted one side and this morning I have painted both sides now I guess when it is dry it will be ready for the screen and what a job it is going to be. I tried to get some green paint but it is an awful homely color but it will be clean if I ever get done

I have got the kitchen windows cleaned
and the screens on the fly came
in so I just had to get them on

I havent touched the sitting
room yet. I cant find anybody
to help. You went over to Wellington
sunday but he heard that the
women he was trying to get
would swear and smoke so
he gave that up. The Dr gave
me something for my appetite
so I can eat all right and I
have had all the greens I could
eat jessie gave me two musses
and Cynthia has dug a number
of musses I had a muss yesterday
and I cooked some horsradish
with them and they were nice

I told you I thought Leticia
was going down to take Jash's
place well he isnt going to

but I guess Allen and Mattie will
take it they are talking about
it and if they can think alike
they will go there I dont envy them
the job to see Joshua through.
he hangs out here the most of
the time now. I guess I didnt
tell you that Don is dead this
fellow shot him and just in time
to save the dog tax for the next day
You got a tax bill, I havent answer
ed Bills letter but I shall and
send Marcias back to him, and
the ping I will wait until you
come up then if Bill wants it
sent out there why we will
send it you can tell him if
you write to him again I think
it is quite a risk to send it way
out there but perhaps it would
go all right if it was registered

Gunt Hamaly
is up to 4 weeks
but she can't come
up here she is in
such bad shape
she has failed so
much since we
come that Charlie
is coming up to
take her back
Bramm went
down to see her
yesterday she
is losing her
mind dreadfully
got up yesterday
morning and put
her carpets on out
side of her dress up
and had her teeth
pulled out and
put down. I pity her so

might he sent me a nice book

Daily Strength for Daily Needs

I will send the letter he wrote
to Nellie it is good and I want you
to read it then you can keep it if
you want to if not send it back

Our peas are up but they were a
long time coming I guess he
covered them to deep I don't think
he know much about planting
a garden he don't like working
on a farm and isn't going to
stay much longer thinks he can
earn more working by the day
well I must go to work now it is
nearly dinner time I am sorry your
appetite is poor you need to eat if you

teach zeland
